Width	1010
Depth (mm)	462
Height (mm)	12
Net weight (kg)	13,1

Material and surface treatment	
Main material	Dekton
Color	Marble
Packaging dimensions and weight	
Package height(m)	0,530
Package width (m)	1,080
Package depth(m)	0,020
Package weight(kg)	14,000

CARE INSTRUCTIONS

Silestone countertops Silestone is a stone material that comprises 94 % quartz, making it hard and durable. The countertop is completely homogeneous, without any joints. Silestone is a non-porous surface, which makes it resistant to staining by oils, make-up and many other everyday products. However, you should avoid exposing the countertop to acetone, which can cause staining. Do not place hot utensils such as straightening or curling irons directly on the surface, the high temperature may damage the surface For day-to-day cleaning, use a mild cleaning product. Do not use abrasive sponges or agents. Do not use strong chemicals, bleach, chlorine-based products, etc. The countertop has a matt finish with a light texture for a soft feel. Do not polish the countertop. The countertop should be protected from knocks that may cause it to become chipped.
