RSK	8933069	Surface finish	Matt
EAN	7330027102870	Color	Marble
Standards and classifications		Packaging dimensions and weight	
ETIM	EC010460	Package height(m)	0,035
Product dimensions and weight		Package width (m)	1,030
Width	1010	Package depth(m)	0,475
Depth (mm)	462	Package weight(kg)	14,200
Height (mm)	12		
Net weight (kg)	14,2		

CARE INSTRUCTIONS

Silestone countertops Silestone is a stone material that comprises 94 % quartz, making it hard and durable. The countertop is completely homogeneous, without any joints. Silestone is a non-porous surface, which makes it resistant to staining by oils, make-up and many other everyday products. However, you should avoid exposing the countertop to acetone, which can cause staining. Do not place hot utensils such as straightening or curling irons directly on the surface, the high temperature may damage the surface For day-to-day cleaning, use a mild cleaning product. Do not use abrasive sponges or agents. Do not use strong chemicals, bleach, chlorine-based products, etc. The countertop has a matt finish with a light texture for a soft feel. Do not polish the countertop. The countertop should be protected from knocks that may cause it to become chipped.
