

KITCHEN MIXER SERVE XL PULL OUT & DISHWASHER SHUTOFF BRUSHED

Item number: 1382534

Hafa Peak XL is a stylish, tall kitchen mixer tap with a dishwasher connection. The tall, pull-out spout provides extra reach and makes work in the kitchen easier. Switch between normal spray and a more powerful shower spray at the touch of a button.The tap is made from high-quality stainless steel and has a hard-wearing ceramic cartridge. EasyMount makes installation quick and easy, with no tools required. The brushed surface is treated using PVD technology to give the tap its final colour and a finish that retains its look over time. To maintain the lustre of the brushed surface, wipe with a soft, non-abrasive cloth after use.Hafa Peak XL is a tall tap, so measure the space beneath the wall unit before purchase.

Hafa develops taps built to last, with cutting-edge design. Materials and components are chosen with care and a thorough knowledge of current building regulations and installation methods.

You decide the look – Hafa offers the choices and the carefully considered details that let design, materials and function work in harmony. With Hafa bathroom furnishings, you can create a cohesive whole, a bathroom that reflects you. Defined by details, reflecting you.

DETAILED INFORMATION

Item number	
RSK	8312746
EAN	7330027184890

EN standard	EN817
CE marked	Yes
ETIM	EC011431
Product dimensions and weight	
C/C measure, spout to body	200
Depth (mm)	240
Hole dimension (mm)	35-38
Height (mm)	485
Height to spout (mm)	233
Width	156
Net weight (kg)	4
Connection type	
Connection incoming water (inch)	G 3/8 1/2
Material and surface treatment	
Color	Brushed stainless steel
Main material	Stainless steel
Surface finish	Brushed
Packaging dimensions and weight	
Package width (m)	0,505
Package height(m)	0,485
Package depth(m)	0,355
Package weight(kg)	4,500
Miscellaneous	
Dishwasher shut off	Yes

CARE INSTRUCTIONS

Remove soap residue and limescale daily with a damp cloth. Do not use cleaning products that are mordant, acidic or abrasive, because they can do permanent damage to chromium plating, coating, gilding, etc.
